THE **ADVANTAGE** OF ARTIFICIAL

LOOKS REAL. WORKS SMARTER. LASTS LONGER.

Artificial trees and greenery aren't just an alternative - they're a **strategic upgrade**. With modern materials, advanced sculpting, and lifelike finishes, today's best artificial environments deliver **beauty without compromise**, and **performance without upkeep**.

WHY IT'S A SMART DECISION:

- 🌿 Always in Season: No wilting. No replanting. No guesswork.
- 🌿 Predictable Performance: Set it and forget it—permanently installed beauty.
- 🌿 Safer by Design: Built-in fire retardancy, UV resistance, and allergen-free.
- 🌿 Saves Time & Budget: Eliminate ongoing plant care, watering systems, and replacements.
- 🌿 Design Freedom: Go bold—place greenery where live plants wouldn't survive.

From rooftop lounges to indoor lobbies, artificial is the no-brainer choice for architects, developers, and designers who want to maximize impact with minimal maintenance.

DON'T JUST DECORATE. DESIGN SMART.

TREESCAPES

AN INTERNATIONAL GREENSCAPES FAMILY COMPANY

ENGINEERED TO ENDURE. **DESIGNED TO INSPIRE.**

Manufacturer of preserved palms and fully fabricated trees engineered for durability and realism. Perfect for high-traffic environments.

IDEAL FOR:

- 🌿 Hospitality
- 🌿 Themed Retail
- 🌿 Malls & Casinos
- 🌿 Outdoor Entertainment Districts

WHY TREESCAPES:

- 🌿 Consistent specs for repeatable assemblies
- 🌿 Inherently fire retardant
- 🌿 Built for public space durability
- 🌿 Fast, efficient onsite assembly

SCALABLE BEAUTY. RELIABLE PERFORMANCE.

internationalgreenscapes.com

IFR + UVI = BEAUTIFULLY SAFE, INSIDE AND OUT.

IFR, UVI + BIOPHILIC DESIGN

BEAUTIFUL. SAFE. SMART.

Biophilic design meets fire-retardant and UV-resistant performance. Our materials are inherently fire retardant (IFR) and include ultraviolet inhibited (UVI) options that stand up to sun exposure—ideal for both indoor and outdoor applications where safety and durability are essential.

Whether it's a code-compliant interior or a sun-drenched rooftop, we build green environments that look stunning and perform for the long term.

WHY CLIENTS CHOOSE US:

- IFR materials tested to ASTM E84 and more
- UVI materials available for outdoor exposure
- Safe for hospitals, hotels, airports, and schools
- No watering, no mess, no allergens
- Realistic textures and tones support wellness and compliance

THE BIOPHILIC ADVANTAGE:

- Enhances mood, creativity, and productivity
- Connects people to nature—without the upkeep
- Ideal for environments where live plants fail or fade

LET'S DESIGN SMARTER.
