THE POWER OF ONE ROOF

BREADTH & DEPTH

From mass-scale assemblies to custom sculptural trees

EFFICIENCY

One point of contact, full-spectrum capabilities

EXPERTISE

Decades of experience in commercial-grade botanical design

BIOPHILIC DESIGN. ENGINEERED TO PERFORM.

LOOKS REAL. WORKS SMARTER. LASTS LONGER.

Artificial trees and greenery aren't just an alternative - they're a *strategic upgrade*. With modern materials, advanced sculpting, and lifelike finishes, today's best artificial environments deliver *beauty without compromise*, and *performance without upkeep*.

ALWAYS IN SEASON

Consistent, year-round beauty with no wilting, replanting, or seasonal variability.

PREDICTABLE PERFORMANCE

Permanently installed environments designed for long-term reliability.

SAFER BY DESIGN

Inherently fire-retardant (IFR) and ultraviolet-inhibited (UVI) materials that meet commercial safety standards and eliminate allergens.

OPERATIONAL EFFICIENCY

Eliminates ongoing plant care, watering systems, and replacement costs.

DESIGN FREEDOM

Enables bold biophilic expression in spaces where live plants cannot thrive.

Across hospitality, retail, public spaces, and outdoor environments, engineered artificial greenery delivers lasting biophilic impact with minimal maintenance, providing architects, designers, and developers with a reliable, code-compliant solution that balances beauty, safety, and long-term performance.

DESIGN SMART.

NATUREMAKER
AN INTERNATIONAL GREENSCAPES FAMILY COMPANY

CUSTOM TREES FOR UNFORGETTABLE SPACES.

Naturemaker creates one-of-a-kind, hand-sculpted trees using steel inner-core engineering and artisanal craftsmanship. Designed for impact and permanence, these iconic assemblies transform interior and exterior environments that stir the senses and inspire the soul.

IDEAL FOR

- Hotels & Resorts
- Luxury Retail
- Museums & Cultural Spaces
- Theaters & Themed Venues

WHY NATUREMAKER

- Hand-sculpted by artists
- Built to architect specs
- Engineered to endure
- The original creator of the sculpted tree

BRING SOUL TO YOUR SPACE.

PLANTWORKS
AN INTERNATIONAL GREENSCAPES FAMILY COMPANY

CRAFTED GREENERY. CAPTIVATING SPACES.

Plantworks brings natural-wood-trunk trees, lifelike botanicals, sculpted hedges, and dramatic green walls to life through immersive showrooms and in-house design expertise.

WHY PLANTWORKS

- 🌿 In-house production & design
- 🌿 Immediate access to immersive showrooms
- 🌿 Natural wood trunks, real-feel foliage, lifelike florals
- 🌿 Beautiful, scalable biophilic design

IDEAL FOR

- 🌿 Offices & Lobbies
- 🌿 Restaurants & Wellness Spaces
- 🌿 Residential Amenity Spaces
- 🌿 Retail & Hospitality Interiors

SEE IT. TOUCH IT. BELIEVE IT.

TREESCAPES

AN INTERNATIONAL GREENSCAPES FAMILY COMPANY

ENGINEERED TO ENDURE. **DESIGNED TO INSPIRE.**

Treescapes manufactures preserved palms and fully fabricated trees engineered for durability, realism, and high-traffic commercial environments.

IDEAL FOR

- 🌿 Hospitality
- 🌿 Themed Retail
- 🌿 Malls & Casinos
- 🌿 Outdoor Entertainment Districts

WHY TREESCAPES

- 🌿 Consistent specs for repeatable assemblies
- 🌿 Inherently fire retardant
- 🌿 Built for public space durability
- 🌿 Fast, efficient onsite assembly

SCALABLE BEAUTY. RELIABLE PERFORMANCE.

internationalgreenscapes.com

IFR + UVI = BEAUTIFULLY SAFE, INSIDE AND OUT.

IFR, UVI + BIOPHILIC DESIGN

BEAUTIFUL. SAFE. SMART.

Biophilic design meets fire-retardant and UV-resistant performance. Our materials are inherently fire retardant (IFR) and include ultraviolet inhibited (UVI) options that stand up to sun exposure—ideal for both indoor and outdoor applications where safety and durability are essential.

Whether it's a code-compliant interior or a sun-drenched rooftop, we build green environments that look stunning and perform for the long term.

WHY CLIENTS CHOOSE US

- IFR materials tested to ASTM E84 and more
- UVI materials available for outdoor exposure
- Safe for hospitals, hotels, airports, and schools
- No watering, no mess, no allergens
- Realistic textures and tones support wellness and compliance

THE BIOPHILIC ADVANTAGE

- Enhances mood, creativity, and productivity
- Connects people to nature—without the upkeep
- Ideal for environments where live plants fail or fade

LET'S DESIGN SMARTER.
